Anil Verma Associates, Inc.

**Program Mgmt:**  
BuildLACCD

**Groundbreaking:** April 2006

**Completion:** August 2007

**Total Construction Budget:** \$13.4 Million

**Funding:** LACCD Sustainable Building Program

- To help address student parking woes, Los Angeles Trade-Technical College developed a new six-level, 250,000 sq. ft. Parking Structure located across the street from the campus on Olive Street.
- The facility provides 805 much-needed parking stalls to students and faculty. The structure is LACCD's first Design-Build project, which takes advantage of an innovative management tool that assigns to just one company both the design and build-out of a project, to save time and money. This process benefits the District by lowering overall construction costs.
- For more information about this and other LACCD Bond Program projects, visit [www.LACCDBuildsGreen.org](http://www.LACCDBuildsGreen.org).
